

PIYUSH JOSHI

CLOUD & DEVOPS ENGINEER

Email: piyush.joshi@email.com | Phone: +91 98765 43210 | Location: Gujarat, India | LinkedIn: linkedin.com/in/piyush-joshi |
GitHub: github.com/piyush-dev

PROFESSIONAL SUMMARY

Detail-oriented Cloud & DevOps Engineer and Computer Engineering graduate with expertise in Cloud Infrastructure (AWS), Containerization (Docker), Infrastructure as Code (Terraform), and full-stack Python development. Proven track record in designing high-availability web applications, automating CI/CD pipelines, and integrating relational databases (PostgreSQL). Skilled in algorithm optimization, data structures, and Linux system administration.

TECHNICAL SKILLS

Cloud & Infrastructure:	AWS (EC2, S3, IAM, CloudWatch, RDS, VPC), Infrastructure as Code (Terraform)
Containers & DevOps:	Docker, Kubernetes (Basics), CI/CD Pipelines, GitHub Actions, Linux Administration
Programming & Databases:	Python, SQL, PostgreSQL, Data Structures & Algorithms, Assembly Language (ALP)
Tools & Frameworks:	Streamlit, Git, REST APIs, Shell Scripting (Bash)

KEY ENGINEERING PROJECTS

Automated AI Resume Analyzer Application | Python, Streamlit, PostgreSQL, Docker

2026

- Architected and deployed a full-stack analytical resume parsing web application using Python and Streamlit.
- Designed structured PostgreSQL database schemas to store candidate metrics, skill profiles, and parsing logs efficiently.
- Containerized the backend application using Docker to ensure seamless environment consistency and cloud deployment.
- Engineered algorithmic skill-matching logic to evaluate parsed resumes against targeted job description keywords.

Automated Cloud Infrastructure Provisioning Pipeline | AWS, Terraform, GitHub Actions

2025

- Authored modular Terraform templates to automate the provisioning of AWS VPCs, public/private subnets, EC2 instances, and S3 storage.
- Established an automated CI/CD pipeline using GitHub Actions to perform Terraform syntax validation and automated plan dry-runs upon pull requests.
- Implemented strict AWS IAM security policies adhering to least-privilege principles.

WORK EXPERIENCE

Cloud & DevOps Engineering Intern — TechPulse Solutions

Jun 2025 – Dec 2025

- Monitored multi-instance cloud workloads using AWS CloudWatch metrics, configuring custom alerts for CPU utilization and network latency spikes.
- Developed Python and Shell automation scripts to automate daily PostgreSQL database backups and system health monitoring tasks.
- Assisted in optimizing Dockerfile configurations, reducing container image size by 30% and improving build speeds.

EDUCATION & CERTIFICATIONS

Bachelor of Technology (B.Tech) in Computer Engineering

2022 – 2026

Gujarat Technological University (GTU)

- AWS Certified Cloud Practitioner — Amazon Web Services (2025)
- HashiCorp Certified: Terraform Associate — HashiCorp (2025)
